Furniture designed for life

## Escana Dining Collection

## Escana Dining Collection

*Crisp, linear design*

The Escana collection of dining and occasional furniture reflects many of the current trends in contemporary design. The range is crafted from solid white Oak and Oak veneers with a gently lacquered finish. The crisp, linear nature of the design combined with the natural finish and light honey tones of the wood give the collection a subtle sophistication. An element of softness is introduced with the simple dining chair upholstered in a cotton fabric which sits well alongside the clean lines of the other pieces. An ideal range for a variety of settings and colour schemes this collection brings an element of modern style to your home.

The range has a unique quality due to the fact that the small imperfections that characterise the timber have occurred naturally in the forest rather than through an artificial distressing process. Grain detail and occasional knotting adds authentic character.
